NEVERENDING

Product presentation (max 100 words)

The name is its own guarantee. ST:01™ Neverending™ Energy™ is the milestone in Pirelli technology for trucks dedicated to semitrailers. The product offers increased mileage and durability and excellent performances in rolling resistance and grip on wet roads. Top combination of safety and saving, with clear benefits in terms of eco-compatibility.

Description of application (50-70 words)

Product designed to provide low fuel consumption and total cost of ownership optimization. The best balance between mileage and fuel efficiency is found in long distance and highway routes.

Product Feature (50-70 words)

Shape of central grooves reduces compound movement and, consequently, rolling resistance. Lateral reinforced kerbing for greater resistance to impact and rubbing. 5 wide straight circumference ribs ensure great tear strength. Reinforced bead geometry promotes high resistance to lateral impacts. High silica content compound ensures low heat generation for low rolling resistance and durability.
